We have over 50 speakers and presenters representing the richness and diversity of the Field of Family and Systemic Constellations.

The 2013 US Systemic Constellations Conference in Seattle will showcase the future of Constellations with leading trainers and creative facilitators sharing new insights, innovations and integrations. We will connect to the deep past with shamans and healers from the Mayan and Maori peoples, two of humanity's oldest, intact indigenous cultures.

Human consciousness is being transformed during our lifetime. Constellations open a window into these new dimensions of awareness. Be part of this 4-day, 300 person event. It is an experience that will inspire and energize you personally and professionally.
